Intended for intermediate compliance programs

Below is an overview of a checklist for your inventoried technology products. This cheklist allows a supplier or distributor to maintain data for all their technology products. This data can be used to determine the appropriate shipping requirements for technology products. especially those containing lithium-ion batteries. This is just a sample and will be a fluid list as regulations continue to evolve.

Technology Inventory Statistics For Shipping											
Product MFG #	Product	Certification	Battery	Li-lon or Li-Metal	Number of	Battery	Watt	Milliamp	Output	Output	Battery (BAT),
Vendor MFG #	Description	Standard(s)	Type (Li-lon	considered	Batteries or	Weight	Hours	Hours	Volts	Amps	Contained in Equipment
Vendor Sku #			/ Li- Metal)	BATTERY or CELL	Cell in item (1,2,3)	Grams (g)	(Li-lon)	(MaH)			(IN) or Battery with Equipment (WITH)
					(1,2,3)	(9)					Equipment (with)

Sample was provided by industry members for the betterment of the promotional products industry.
